

The Centers for Medicare & Medicaid Services (CMS) has made a change to the RITUXAN® (rituximab) J-code and has assigned a permanent J-code for RITUXAN HYCELA® (rituximab/hyaluronidase human subcutaneous injection).

Effective **January 1, 2019** J-code **J9312** will replace J9310 for RITUXAN and the billable units will change from 100 mg to **10 mg**. Additionally, the permanent J-code assigned for

RITUXAN HYCELA is **J9311**.

The *RITUXAN AND RITUXAN HYCELA J-Code Flash Card*, attached to this email, details the new J-code information. We encourage you to post this by your desk for quick reference and forward to your billing department.
